

We are pleased to announce that Executive Aviation, Enterprise and National have teamed up to provide great car rental rates for EA team members.

Rates as low as \$44 CAD/day in Canada and \$43 USD/day in the US. These are fantastic rates especially with the shortage of rental cars across North America!

To make a reservation using the Executive Aviation rate, simply follow this link:

<https://elink.enterprise.ca/en/22/05/executive-aviation.html>

OR

Use Corporate Code: **XVC123L** when booking with either Enterprise or National.

**A little bit of fine print:**

- \*You must show proof of employment with EA at the time of rental pick-up
- \*Although still heavily discounted, rates may be higher in some markets and at certain rental locations
- \*Our agreement with Enterprise and National provides you with special corporate rates only. You are responsible for payment, insurance, and all other charges related to your personal rental using the EA corporate number.
